The weight relates to the length marked with*

UNIHOOC

SUPERSKIN

The **SUPERSKIN** stick series features our **SOLID BALANCE TECHNOLOGY**, which is a concept where each player has the possibility to pick the preferred shaft from several different weight and price categories within the same stick series, and also match it with his or her blade of choice. This year we have made the concept even wider than before as we have added oval shaft options in several of the categories. Each shaft category is designed in its own color theme to make it as easy as possible to find the stick type that you are looking for.

All you have to do is decide which shaft model and what flex you prefer:

	5% CARBON FIBER 95% GLASS FIBER		40% CARBON FIBER 60% GLASS FIBER
	80% CARBON FIBER 20% GLASS FIBER		95% CARBON FIBER 5% GLASS FIBER
	95% CARBON FIBER 5% GLASS FIBER		100% CARBON FIBER

[SBT] SOLID BALANCE TECHNOLOGY

This concept features the **SOLID BALANCE TECHNOLOGY** shaft system which aims to offer a wide range of options from which you can choose your own perfectly balanced stick in all weight categories without sacrificing stability, strength, and quality.

BLADE FOR ROUND SHAFT

BLADE FOR OVAL SHAFT

UNIHOOC / SUPERSKIN / 2024

UNIHOOC / SUPERSKIN / 2024

SUPERSKIN COMP

This is the junior option in the **SUPERSKIN** range. A strong shaft with great balance and low weight. 5% carbon fiber, 95% glass fiber.

SUPERSKIN MID

The **SUPERSKIN MID** shaft is a great option for both junior and senior players thanks to its versatility. 40% carbon fiber, 60% glass fiber. Now available also with **OVAL KIT** grip profile.

SUPERSKIN COMP

26741
UNILITE SUPERSKIN 30 turquoise/white
Length: 83, 87*, 92cm | Weight: 204 g

MULTILAYER INTERLACE STRUCTURE / MANDREL MOULDING / 5% CARBON 95% GLASS FIBER / FLEX 30MM AT 300N / SUPERSKIN GRIP

SUPERSKIN MID

26751
UNILITE SUPERSKIN MID 29 neon yellow
Length: 87*, 92, 96 cm | Weight: 209 g

MULTILAYER INTERLACE STRUCTURE / MANDREL MOULDING / 40% CARBON 60% GLASS FIBER / FLEX 29MM AT 300N / SUPERSKIN GRIP

SLIM SHAFT + OVAL KIT  26963
UNILITE SUPERSKIN MID 29 Oval neon yellow
Length: 92cm | Weight: 213 g

MULTILAYER INTERLACE STRUCTURE / MANDREL MOULDING / 40% CARBON 60% GLASS FIBER / SLIM SHAFT / SUPERSKIN GRIP

The weight relates to the length marked with*

SUPERSKIN REG

SUPERSKIN REGULAR is one of our steadyest shaft models, with an optimized balance. 80% carbon fiber, 20% glass fiber. Now available also with **OVAL KIT** grip profile.

SUPERSKIN REG 29

26761
EPIC SUPERSKIN REGULAR 29 white/blue
Length: 92, 96*, 100cm | Weight: 220 g

MULTILAYER INTERLACE STRUCTURE / MANDREL MOULDING / 80% CARBON 20% GLASS FIBER / RAW SHAFT WEIGHT: 103G (96 CM) / SUPERSKIN GRIP

SLIM SHAFT + OVAL KIT ● 26965
EPIC SUPERSKIN REGULAR FL 29 Oval white/blue

TOP LEVEL FLOORBALL DEVELOPMENT

Pushing the limits has always been important for UNIHOC and this is something that is in our DNA. Over the years this has led to several boundary breaking inventions, such as the Curve shaft and the development of the layered goalie equipment.

With the EVOLAB concept we have taken our focus on development further than ever before, trying to push the boundaries as far as physically possible. This is a process in which we gather all our internal knowledge and combine it with the input from the best floorball players in the world, pushing the limits of what is achievable as far as we can.

In the development and release of a new EVOLAB product each step is properly tested and evaluated to see what is good and what is flawed, and then the process is adapted and improved accordingly to find the optimal result for each component that will be used in the final version of the product. The work continues until the result is perfected and all the parts of the new product match our demands to 100%.

165g

THE LIGHTEST STICK IN THE WORLD

EVOLAB is our concept for developing and implementing cutting edge floorball equipment, where we push the limits further than ever before.

A new **3.4 gram** slim end cap with grooves instead of solid plastic.

Lightweight gripband featuring a kywed channel on the backside.

A new thin **23.8 mm** diameter EVOLAB shafts in **100% carbon fiber** with optimized layering.

Non-painted shaft with minimized graphics.

The brand new **UNILITE** blade in **TITAN PP** material is our lightest blade ever at **64.5 gram**.

Single-screw connection.

EVOLAB is our high-end concept for developing and implementing cutting edge floorball equipment, where we push the limits further than ever before.

UNI LITE

OUR **LIGHTEST** BLADE EVER

UNILITE is our lightest blade ever. The construction is designed to cut unnecessary weight but still keep the torsional strength of the blade as well as the great playing characteristics.

The result is a brand-new shape and bar system with medium pre-hook and concavity, combined with a clearly marked step between the frame and the playing surface for great ball control and shot release.

CONCAVITY

PRE HOOK

13 MM / 15 MM / 13 MM

JUNIHCOCSEASON 23 / 24

The **REGULAR PE** blade is our most common blade type, available in soft, medium, hard.

The **FEATHER PP** is a lightweight blade with soft touch and high friction, available in medium.

TITAN PP is a super firm blade material with low friction against the floor surface.

ICONIC

ICONIC is a shooting blade from Unihoc. This is the most aggressive blade in our collection, totally focused on optimizing the shooting qualities of the players. The blade has a distinctive concavity along the entire playing surface, starting immediately at the heel of the blade and running all the way to the tip. This concavity improves the ball handling by giving a great grip on the ball, and at the same time it adds extra power in the shot release.

GRIPBANDS

The grip is the final link between the hands and the stick and it is very important to make the right choice about which grip that is the best one for each individual player. The range is wide and you have to decide whether to go for tackiness, durability, low weight, thickness or color.

SUBLIMATION

Now you can customize your own unique design for the **MIAMI SET** and the **PHOENIX ECO** set by using **SUBLIMATION TECHNOLOGY**. This means that you can create your team's match set exactly as you want it in terms of colours, logos, player names and numbers. The design is sublimated into the fabric, which gives a soft garment without any printed transfers on it.

FOOTWEAR

The **U6 COURT** shoe model is the perfect floorball model with great stability and low weight in combination with great cushioning. The new upper has been designed to offer a fantastic fit when you slide the shoe onto your foot and to give a great stability and cushioning. Both the medial and lateral sides of the upper are using modern lightweight materials that offer strength as well as comfort along the entire foot.

FOOTWEAR

U4 PLUS

The **U4 PLUS** is a light performance shoe especially designed for floorball. The upper construction is made of breathable mesh for added comfort and cooling, and in combination with the printed hotmelt areas it gives a very modern floorball shoe with an optimized fit. This technically crafted shoe offers all the benefits that a floorball shoe needs, such as low weight, excellent medial and lateral support, as well as great durability.

FOOTWEAR

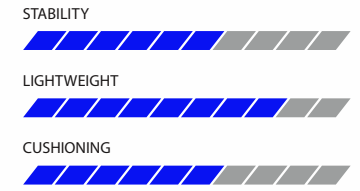

The Unihoc goalie shoes are very popular and ever since we introduced them in our collection they have been one of our bestsellers each year. **UX GOALIE** is a modern goalie shoe that has been developed with mobility and comfort in mind. The new shoe has been developed as a combination of very strong and durable materials to create the perfect lightweight shoe for the modern goalkeeper. The shoe is loaded with several special features such as the Slide Control Area, the Flexi Shank and the Lace Cover System. The dual outsole system makes the shoe very versatile and with a brand new design that will match any goalie set the new **UX GOALIE** model is sure to be a corner stone in our shoe collection.

FOOTWEAR

The **U3 JUNIOR** indoor shoe is the perfect model for the youngest players. This is a classic shoe model developed with strength and stability in focus. Strong micro fiber mesh has been used for the upper construction to give breathability and low weight, and in combination with a robust layer of PU the shoe is certain to offer both durability and comfort to match the high demands of the floorball game. The added U-frame along both sides ensures a strong construction and stability. The rubber outsole is made of non-marking rubber with excellent grip on the playing field.

BASIC COLLECTION

The **UNIHOOC BASIC COLLECTION** is created to help spreading this fantastic sport across the globe. The floorball sport is getting more and more recognized and widespread each year and to be able to supply the new floorball markets with a suitable type of equipment to get the game going we have developed a range of products that is perfect for this purpose.

BASIC COLLECTION

To meet the demand from the market we are now introducing a new set of very affordable sticks intended for schools, workplaces and other groups of players that need good sticks at a low price level.

The **CHALLENGER** consists of 12 sticks (9 left + 3 right) together with 6 white balls. The sticks are equipped with top quality match blades from either UNIHOC or ZONE-FLOORBALL and the blade choice will depend on the our current stock availability. The sticks come without IFF certification marking to make it possible to reduce the price level as much as possible.

FLOORBALL RINK PREMIUM

The **PREMIUM RINK** sets a new standard for floorball rinks in terms of sustainability, materials and design. We have gathered a lot of information from our teams and federations to create the best floorball rink out there. The demands are always increasing along with the growth of the sport, and that is why we are very proud to present this high end rink to the market. The rink has 6 mm thick walls made of polypropylene (PP) plastic material. The PREMIUM rink model comes with substitution zones clearly marked in white top rail colour.

**RINK CAN BE CUSTOMIZED
 ACCORDING TO REQUIRED
 MEASUREMENTS.**

RINK PREMIUM SPLIT SYSTEM

The **SPLIT SYSTEM™** is developed as a complement to the PREMIUM and BASIC rinks, to make it possible to divide the gymnasium into several smaller playing fields. The **SPLIT SYSTEM™** consists of 4 pcs of corner parts, 14 pcs of 2.5m parts and 2 pcs of 1.5m parts (40x20m rink). A full-size playing field can thus be divided into 3 smaller fields as illustrated above. **57980**

FLOORBALL RINK BASIC

The **BASIC** sets a new standard for floorball rinks in terms of sustainability, materials and functionality. This BASIC rink model has slightly thinner walls than the PREMIUM model, which gives it not only a reduced weight but also a lower price. This rink model comes in solid black colour with no deviating contrast colour for the substitution zone top rails.
